

Water Notice: Temporary Rotation Schedule in Effect

Allen & Reno Park Lateral Ditch Company

Due to ongoing severe drought conditions affecting the Swadley Ditch system and the Allen & Reno Park Lateral Ditch and following conversations with the Colorado Division of Water Resources (Water Commissioner), Allen & Reno Park Lateral has voluntarily begun a temporary rotation schedule with the Swadley Ditch to help ensure adequate flow reaches all users during this shortage.

Effective July 15, 2026: Allen & Reno's sluice gate closes at 8:00 PM. The ditch is running on a voluntary 48-hour rotation cycle while we gather data and coordinate further with Swadley and the Water Commissioner. **Our next scheduled opening is Friday, July 17, at 8:00 PM.**

This is a temporary, voluntary measure adopted by the Board in response to critically low flow (currently approximately 0.89 CFS) and is subject to change as we continue to coordinate. Schedule subject to change – always check this page for current status before contacting the Board or Contact Line page.

Effective tonight, July 15, 2026, the following rotation is in place:

- July 15, 2026, Allen & Reno's headgate Closed at 8:00 PM
- The ditch will run on a 48-hour rotation cycle, alternating between Allen & Reno and Swadley
- Allen & Reno Lateral Next Gate Opening is Scheduled for **Friday, July 17, 8:00 PM**
